

4/1/99

RADAC meeting

10:00-11:30

- I. System Requirements Specification
 - The team reviewed the proposed requirements output from the System Engineering Process requirements meeting.
 - More specifics are listed for inputs than outputs.
 - The operator interface shall be designed such that 1 person can execute the process control function for 16 TSPI sources.
 - See the document at <http://www.wff.nasa.gov/~RADAC/pdf/requirements.pdf>

- II. Comments
 - Review the requirements document and e-mail Tom with any concerns/omissions/or general thoughts about the proposed requirements.
 - **Next meeting** - 4/15/99
