

11/04/99

RADAC meeting

10:00-11:30

- I. Linux
 - Rack mounted PC's from E-106 will be set up in the ATLANTIS Lab for development purposes in about 2 weeks
 - Debbie will install Linux on these machines
 - Dwayne may need to assist with connections, timing, configuration ...
 - All should become familiar with the OS
 - CORBA can be found at the following link:
<http://www.cs.wustl.edu/~schmidt/corba-urls.html>
- II. Interfaces
 - What kind of interfaces to define?
 - What has already been defined?
- III. Lab View
 - Tom has several evaluation copies of LabView that are good for 30 days after installation
 - Anyone wishing to install and take a look at LabView see Tom
- IV. Data Formats
 - Terry will acquire timing data formats
 - Debbie has LTAS and MDDF formats
 - Dawna will scan data formats for web placement
- V. Comments
 - No word on requirements
 - **Next meeting** - 11/18/99
